Cleaning System Code: C4

1. Introduction

An alkaline, biodegradable, solvent free detergent cleaner concentrate for all water and alkaline resistant flooring. This product must be diluted with water prior to use

2. Where to use

On all water and alkali resistant substrates, for heavy to light duty cleaning applications. This product is particularly effective for the removal of fatty and oily soils.

3. Where not to use

- Decorative waxed, or dry-bright polish treated finishes.
- Bare or untreated timber
- In the vicinity of aluminium surfaces or furniture.

4. Physical properties.

Appearance	A fast breaking, weak foaming, free flowing pink liquid with a mild citrus odour.
pH	> 12.0
Specific Gravity	1.055 – 1.090
Non Volatiles % m/m	10 - 15
Active Content % m/m	10 - 15
Flammability	This product is not flammable.
Composition	An aqueous solution of organic and inorganic sequesterants, water softeners, non-ionic surface active agents, synthetic fragrance and a pink water soluble dye.

5. Application Details

Dilute in warm or cold water according to required application. Apply using a mop, cloth, squeegee, sponge or similar and allow to remain in contact for a short time. Remove with a damp mop. Where heavy duty or heavily soiled conditions occur, rinsing is advised to remove soils and to prevent their spread. Better soil removal will be achieved with a longer contact time, but do not allow to dry before removal. There is no need to rinse on floors following light duty use. .

Heavy duty floor cleaning,	1:30 C4/water	Light duty floor cleaning	1:60 C4/water.
----------------------------	---------------	---------------------------	----------------

6. Availability

Five litre jerry cans.
